March 2011 Employment Statistics

"I am very encouraged that in the past year we have added approximately **13,000 private sector jobs** and seen a nearly two percent drop in the unemployment rate, according to data certified by the U.S. Bureau of Labor Statistics. It's clear Indianapolis is well poised for recovery."

- Mayor Gregory A. Ballard (April 19, 2011)

Non-Seasonally Adjusted Unemployment Rate

Other DPW Transportation Improvements

Bridge Project

The Mendenhall Road bridge over Goose Creek between Camby Road and Mills Road will be rehabilitated next year. It is scheduled to be bid in February 2012, with construction in 2012.

Culvert Replacement

DPW is planning several culvert replacement projects in Decatur Township. Replacing culverts doesn't necessarily help with drainage, but does restore the culverts to their original condition. Projects will be completed on Mendenhall Road, Hayworth Road and Camby Road.

DPW Storm Water Improvements Mills and Trotter

This project will alleviate drainage and flooding problems for nearly 50 homes by constructing hybrid ditches, inlets and pipes within the Maple Lawn Addition subdivision. The project starts this spring and will be finished next spring.

Before

After

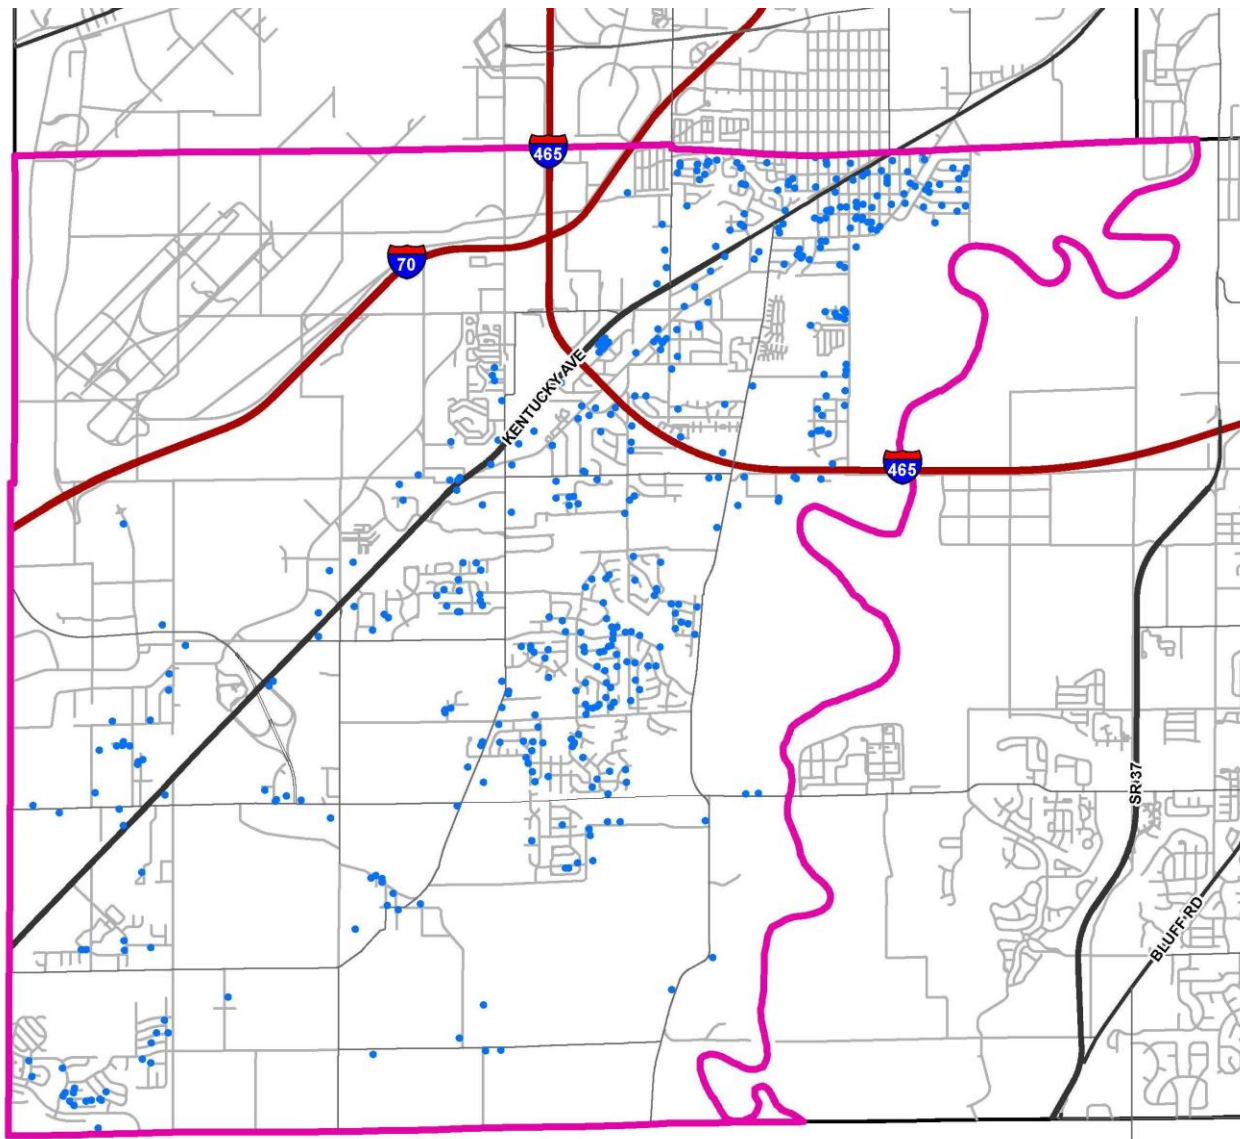

Rain water flows into the ditch and is absorbed into the ground. Higher waters will flow into the grate and into the storm pipe.
